Federal Communications Commission
Bureau / Office

REQUEST FOR DISMISSAL OF PETITION

Wavebounce and the GPR Service Providers hereby request that the Commission dismiss their above-referenced petition for waiver of Section 15.509 of the rules. They continue to believe that the requested waiver would permit the manufacture of devices which would very significantly enhance public safety by identifying hidden hazards to bridges, tunnels, and highways before these hazards result in loss of life rather than afterward. Unfortunately, it appears that it will require the crash of a school bus or derailment of a train to occur before NTIA appreciates the utility of these devices. In the meantime, in the face of opposition from NTIA, the petitioners are withdrawing their request without prejudice to refiling at a later date.

Respectfully submitted,

Wavebounce
GPR Service Providers
